THE SANTA FE.

What the Midland Route Is Doing—
The Montgomery Branch.

A GAZETTE reporter met Judge
Lynch, acting chief engineer of the
Gulf, Colorado & Santa Fe railroad, in
the city yesterday. The judge has
just arrived from over the line, and
when questioned as to what was being
done, replied:

"We have concluded to extend the
Montgomery branch at an early day
in order to reach the pines of East
Texas. A corps of engineers are sur-
veying and laying off the line at pre-
sent, and in a few days grading
will commence and work will be
continued until the proposed
extension is completed. This
will give us access to the lumber re-
gions and enable us to supply a vast
area of prairie country which at pre-
sent is being supplied with lumber by a
more circuitous route. We will do a
large lumber business when once
ready to handle lumber from the
Texas pines."

What about the other extension of
the Santa Fe, the main line from this
city through the territory, for in-
stance?

"That is a topic upon which I can
give no information as I know nothing
about it."

"But it is currently rumored that
this extension will be begun right
away?"

"Oh, certainly; rumors are not want-
ing on any subject of public interest.
I am not prepared to say that these
rumors are groundless for, as I said
before, I do not know. There may be
such an undertaking contemplated
by the management but if there is I
have not been advised of it."

"Your position, judge, is such that
you would be likely to know before
the public if anything of this kind was
under consideration, is it not?"

"I would think so, but I may be
mistaken; I can speak advisedly only
on the work mentioned, the Montgom-
ery branch; that is going to be pushed,
I am sure, but as for the others, I
know no more than yourself."

Judge Lynch looked fixedly at the
reporter for a few minutes as though
debating something in his mind, then
his face lit up with a triumphant
glance, showing that he had arrived
at a satisfactory solution, and headed,
"You might see the roadmaster or
most any of the section bosses, and they
will know more about what you want
than I do."

"That's strange," said the reporter,
somewhat astonished, "I thought you
would know more about what was go-
ing on than a section boss."

"Yes, but I have nothing to do with
employing men; you will have to see
some of them."

"I don't care to know anything
about the employees," said the reporter.
"You don't! What are you?"

"I am a reporter, picking up an odd
grain of news for publication."

"A reporter! I thought you were a
section hand hunting a job. Don't
use anything I have told you then. I
was intending to do you a favor, that
is all."

The reporter laid his hand on his
heart and promised faithfully that he
would never mention a syllable of
what is hereinbefore stated, and re-
porters always keep their word.

THEATRICAL NEWS.

The advance sale for the Golden
troupe promises a good attendance to-
night.

"A Planter's Wife" will be produced
at the opera-house to-night. It is said
to be a fine and interesting play.

Gus Penoyer, Jr., is expected in
the city to-day in advance of Barlow,
Wilson & Co.'s mammoth minstrel
company.

Gus Williams is doing a large busi-
ness at the People's theater, St. Louis,
as "Capt. Mishler." He will shortly
make his appearance at our opera-
house.

At a meeting of the Dallas opera-
house stockholders Wednesday after-
noon Mr. and Mrs. Benton were
highly complimented on the neat and
attractive appearance of the theater.

Lizzie May Ulmer is jumping into
greater popularity at every perform-
ance. From Washington our cor-
respondent writes: "She was called
out between every act and the curtain
fell on a perfect ovation."

Matinees at the opera-house on Sat-
urday afternoons are becoming fash-
ionable and are highly appreciated by
ladies and children who are unable to
witness the night performances. The
Golden troupe will present the comedy
of "Meg" to-morrow afternoon, and
the B. & W. Mammoth Minstrel com-
pany will give a matinee a week later.

Manager Benton leaves for Colum-
bus, Ohio, in a few days to arrange for
the opening of Prof. Pratt's tour, which
is to include the entire world. Prof.
Pratt is considered the leading phre-
nologist of the present day. Three
agents, two short-hand writers and a
secretary accompany the professor.
The trip is expected to consume five
years.

old field mullein a mucilaginous one
that is very healing to the lungs.
These two principles present in Tay-

Good Bread.

A reliable baking powder is a house-
hold necessity, and in the make-up of
Silver Loaf a combination has been
found by which the most inexperi-
enced housekeeper is on an equality
with those who have made bread mak-
ing a study for years. When direc-
tions are followed in its use the result
is always satisfactory, and no house-
wife who uses Silver Loaf Baking
Powder ever has cause for complaint.

Pure Powder.

Since the first package of Silver
Loaf Baking found its way to the
home of a consumer, it has grown in
popular favor with a rapidity un-
known in the history of any baking
powder yet offered the public. That it
rose triumphant over every op-
posing obstacle and took a position
side by side with the leading brands
in the market, evidences the merit
aimed for it by the manufacturer.
Why this unprecedented popularity is
a legitimate question, and the answer
is found in the guarantee of J. H.

A CURE FOR HENPECKED HUSBANDS

An artisan residing in our city complained to us frequently of his wife's quarrel and scold; at the same time stating that during their courtship and wedded life, no woman could have evinced a more loving, amiable disposition. Continuing our friend remarked, he would give anything to find the same in her eyes, as he did in those halcyon days of bliss. After a short conversation, we him in one of our
